

ANGEL OUTREACH

we can and we will

We are a volunteer group networking with each other to fundraise for items needed for children's homes and safe-houses around East London. Combining our resources and social networks enables us to make a tangible difference to these homes both in time and physical needs. We aim to commit ONE day of our year to spend at a children's home. In doing so we aim to release the regular staff from their duties and spend quality time with the children doing things that children love to do... PLAY and be loved.

How can you help?

Time

Volunteer ONE Saturday a year at a children's home/safe house. Play outside/inside games, board games, colour in, paint, imaginary play, sewing, video games, puppet show, bake, arts & crafts, sewing, knitting, absolutely anything creative and fun that you can entertain the children with. We encourage individuals, supper or book clubs, church groups, school interact clubs and businesses to sponsor a Saturday from 9 until 1pm is recommended.

Collect

Gather used clothing, toys, baby clothing, baby bottles, dummies, nappies, formula, bum cream, toiletries, blankets, receiver blankets, thermometers, post-pregnancy sanitary pads and any other baby care items from friends, families, colleagues and through your social networks. Any items which children love and need including food, snacks, sweets, biscuits, toiletries, stationery, overnight bags, books, puzzles, board games, shoes, underwear, pyjamas, towels and facecloths.

Expertise

If you have any expertise which can be beneficial to these children which can assist them positively through their challenges and life experiences. Counselling, life coaching, bible studies, adolescent coaching/advice, healthy eating & exercise, extra maths, reading or any other educational assistance. Tertiary education coaching. General health and dental check-ups. Xhosa speaking individuals and creative writers to compose Xhosa literature for new mothers on how to care for their new baby.

Fundraising

This task is not for everyone however if this is something that you are good at then we welcome any assistance.

OR

Recruit

The more volunteers we are able to recruit for Angel Outreach the more children's homes we can assist on a Saturday and the more we can do to make life more comfortable for these children and the more new mothers we can assist to prevent the dumping of babies.

Our committee will co-ordinate the rosters, remind the volunteers of their weekend to volunteer. We will forward the needs list so that you are aware of the needs for the home that you are visiting. We communicate with new member referrals from our volunteers. We will visit children's homes that are in need and that our members feel we need to support.

All we need.... is your commitment for ONE day a year.
